SUMMER SCHOOL ATTENDANCE POLICY

Because the High School Credit program operates on a compressed schedule, attendance at each and every session is of the *utmost* importance. Simply stated, if you are a student who is prone to absences, or if you know your family will be taking a vacation during the 17 days that the High School Credit program is in session,

the program is NOT for you.

The summer school principal *may* take medical illness, family emergency, or other special situations into *reasonable* consideration. It is the individual student's responsibility to clear special situations with the principal prior to the anticipated absence. Teachers maintain the right to ask for appropriate make-up work and time for any days missed. Summer camps, tournaments, etc., are not considered as approved absences.

I have read and understand the SUMMER SCHOOL ATTENDANCE POLICY.

PLEASE NOTE: Students may sign up for courses at both high schools unless otherwise indicated. However, if enrollment at a particular high school is deemed low, students may need to travel to the other high school in order to take the course. Classes with an insufficient enrollment will be canceled.
