

Logan Middle Wish List

6th grade department

Headphones

Click here to buy—or scan the QR code:
[Headphones](#)

The 6th grade unit is asking for contributions to headphones for our classrooms. Some of the ways we use these are for daily work in the classroom, independent activities, iReady and Forward testing, and listening to audiobooks. The regular price of one pair of headphones is \$21.69, so any help contributing to this would be really beneficial. These would be housed in classrooms and shared among students, so many students would benefit from this.

Logan Middle Wish List SOTA II

Flexible Seating

See below for monetary donations
towards flexible seating

SOTA II would like funding for Flexible Seating. This would include wobble chairs, dinah seat cushions, and/or replacing a really old uncomfortable couch. Middle School students' bodies are growing and changing so quickly. It is often hard to sit in a chair for extended periods of time. Not only is it not developmentally appropriate but it is important to give them opportunities to move their bodies. Different types of seating also help our students with neurodivergent brains to focus more on their work in an effective way.

Logan Middle Wish List Special Education department

Lycra Swing

Click here to buy—or scan the QR code:

[lycra swing](#)

Many of our special education students with Autism or significant behaviors have a variety of sensory needs. With a deficit budget, it is hard to find the means for purchasing the necessary equipment to meet their sensory needs. One item our department could use is a Lycra Swing (\$87) and Swing Hanger (\$15) which would provide vestibular input for students who have a sensory processing disorder or autism. When sensory needs are met, students are more likely to be successful at school.

what do you do in the middle of winter in Wisconsin? Luckily, there are many activities that you can play, but we hope that at Logan Middle School to introduce the sport of Broom Ball to the Physical Education department. Currently, we don't have the equipment to play this sport and spend most of the winter months inside. We hope that through the support of the community, we can purchase enough equipment so that our PE department can take their classes outside and play the game. The cost of a classroom set (24 pieces of equipment) is 719.00. <https://gophersport.com/dom-broomball-sets>. Not only is it important for our students to be active during the day finding opportunities to get outside and enjoy the sun and fresh air during the long months of winter only helps improve learning.

Music department

Headphones

Click here to buy—or scan the QR code:
[Headphones](#)

Our general music department is in need of new headphones for their electric pianos/keyboards for silent practicing. Over the years many have broken or gone missing. Many students have to sit and wait for others to be done before being able to use the keyboards. Other headsets are missing the cushions around the ear and are unwearable. We are asking for a set of 10 new headphones for a total of \$78.00.

Career Technology Education Department

Headphones

Click here to buy-or scan the QR code:
Headphones

The CTE Department would like three Sets of Headphones:

Students use these headphones for online simulations/programs within our labs that are based on subjects such as digital citizenship, financial literacy, economics, family & consumer science, and technical education.

Fabric

For monetary donations, see below

Fabric By Yard is essential for our family and consumer science classes where students are learning how to sew.

Poster board

Click here to buy-or scan the QR code:
Poster board

The CTE Department utilizes poster board for our classrooms for tons of different projects where students can show off what they learned. In business class, students use the poster boards as an assessment that they know the importance of digital citizenship and show the different types of economic resources.

Logan Middle Wish List

8th grade department

**Hitting the slopes
in 8th grade!**

8th graders at Logan Middle School would love your support in funding their field trip to Whitetail Ridge at Fort McCoy.

This trip allows students to build community while also seeing real world application of math and science concepts including slope and speed. The cost for this trip is \$20.00 per student. Your donation would go toward sponsoring students' admission to Whitetail Ridge, bussing, and funds to provide snow gear for students in need. The 8th grade students appreciate your support! See below for how to donate.

7th grade department

Junior Achievement Tech Challenge

All 7th grade students will participate in a Western Technical College Junior Achievement Tech Challenge All-Day experience on Friday, May 10. It's a tremendous experience with many area businesses talking to our students about future career opportunities. Please help fund a bus for our 7th graders to attend this event! See below for donation information.
