

COVID Symptoms Screening

2021-22

The School District of La Crosse is no longer requiring students and families to complete the symptom screener survey each day before attending school. We do ask that students and families self-screen for symptoms and **stay home** if demonstrating any COVID symptoms. These symptoms include:

One or more of the following:

- Cough
- Shortness of breath
- New loss of smell or taste

Two or more of the following:

- Fever*
- Body aches
- Sore throat
- Congestion or runny nose
- Nausea or vomiting*
- Diarrhea*
- Chills
- Headache
- Fatigue

Students who are not fully vaccinated should also stay home if they are a household member of someone who has tested positive for COVID-19 or if they are determined to be a close contact to an individual who has tested positive for COVID-19.

*If a student has a fever, vomiting, or diarrhea as a single symptom, they should stay home for 24 hours after the last episode.

If you have any questions about symptoms or a potential close contact, please contact our school nurse, Sara Lieurance or health assistant, Holly Denzer.

With kids in mind,

Lisa Schreiner
