**Pick**
Choose green beans that are deep in color and free of brown spots. A fresh bean will have a velvety touch and make a snapping noise when broken.

**Store**
Store unwashed green beans in perforated bag and use within a few days. Blanched green beans can be frozen and used within 12 months.

**Prepare**
Before use, wash under running water. Remove the stem end by snapping off, trimming with kitchen scissors, or cutting with a knife.

**Use**
Serve fresh, raw green beans with dip for a quick snack or add to a summer salad. Top steamed or roasted beans with olive oil and toasted almonds. They can also be sautéed or stir fried.
