

# Meet Ms. Struver

My name is Heather Struver and I am a preschool teacher at Summit Environmental School. I am so looking forward to learning, exploring and the fun I will get to share with your child during the upcoming school year!

I am originally from La Crosse and enjoy the things that the city has to offer. My family includes my mom, dad and two sisters. I also have two dogs, Lola and Griffin, who I love to spoil. Some of my favorite things to do are being active in the beautiful city we call home and spending time with friends and family. I graduated from the University of Wisconsin-Lacrosse with a degree in Early Childhood Education in December of 2016. Since then, I have worked in the School District of La Crosse. I spent my first full year in Preschool last year and loved every minute!

I am grateful to teach for a school with such a strong school community. Summit has many outstanding qualities that I am proud to be a part of. Preschool is an exciting time because your child will learn so much about themselves and the world around them. My absolute favorite part of my job is to be able to see the growth that each child will experience. My goal is to provide meaningful experiences that will lead to a forever love of learning. I also hope to create a preschool community where families and children will be able to make friendships and grow together. Feel free to reach out with any questions or concerns at [hstruver@lacrossesd.org](mailto:hstruver@lacrossesd.org). I look forward to meeting you all!
